Nampa Teacher Aviation Workshop

Dear Teachers:

I can tell from the telephone calls I have received that I have taken too long to send you this letter. I apologize for the delay. Below are the specifics on the upcoming workshop in Nampa.

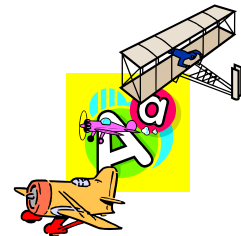

The workshop will be located on the Nampa Municipal Airport at 121 Municipal Drive. We will be in the Civil Air Patrol (CAP)/Experimental Aircraft Association (EAA) hangar, which is about 100 yards north of the Nampa Runway Cafe. I will have a small sign outside to help you locate the hangar. Attached are two maps that will help orient you. Should you have any problems, I will have my cell phone and you can contact me at 208-860-6492.

We will begin checking everyone in at 7:30 AM on Wednesday, June 28. Classes will begin at 8:00 and run until 4:00 on both days. Refreshments and light snacks will be provided. Thursday, June 29, classes will be held at the Warhawk Air Museum.

Please do not hesitate to contact me if you have any questions.

Sincerely,

FRANK W. LESTER, JR.
Safety/Education Coordinator
Idaho Division of Aeronautics
